

\$248,500

## SELECTMEN ZING BARBO

The Wilmington Board of Selectmen, Monday, zinged Leo Barbo, developer of the Wilmington Industrial Park, north of Concord St.

Three of the selectmen did the job, and not once but twice. They were roundly tongue lashed for their job by the chairman, James Banda. But Banda's speech made no difference, and Barbo left the Selectmen's meeting a defeated man.

A gasoline storage permit was the bone of contention. Mr. Barbo had asked for a permit to store 10,000 gallons at his new warehouse, at the end of Fordham Road, in underground tanks.

There were, as Barbo pointed out when he asked the Selectmen to reconsider - no opponents to the permit. The only opposition came from Selectmen Miceli, Boylen and MacDonald.

Mrs. Wavie Drew moved, at the first session of the discussion to grant Mr. Barbo a permit for the storage of 10,000 gallons of gasoline. Barbo had just told the Selectmen that the firm of Barbo's was about to open its new warehouse, in a few weeks, and that there would be about eight trucks operating from that warehouse. He needed the 10,000 gallons he said because of winter time needs for gasoline.

No one spoke against Barbo, nor did anyone other than Mrs. Drew speak for him. Her motion died for the lack of a seconding.

After a moment or two Selectman George Boylen suggested that Mr. Barbo should talk about one thousand or two thousand gallons.

Barbo told the board that in Stoneham he had a permit for 6,000 gallons, and not in a place where the nearest abuttor was 600 feet away. The storage was within 20 feet of a building.

Bruce MacDonald suggested that the gasoline supply was perhaps a matter of programming?

Barbo told the Selectmen that he

had to have enough on hand, in case of storms, or a gas strike.

Miceli: I don't think we can amend the 10 thousand gallon permit - 10,000 gallons seems overly excessive. We have declined others - like to be consistent, 10 thousand gallons to me is excessive.

MacDonald: I agree.

Barbo: 6,000 gallons?

There was no answer from any selectman.

Barbo went out of the Selectmen's meeting room. After a while he returned, and waited to be recognized.

He said he had returned to ask the board if it would be kind enough to reconsider. He was, he said, quite bewildered. 'Had I heard 10 or 15 voices in opposition - but there were none at all!'

'You are assuming what my needs will be. I am so far away from any possible danger. I am doing a good job - I can't understand why this is happening!'

Mrs. Drew moved to reconsider. Again there was silence. No one seconded Mrs. Drew's motion.

After Banda had declared the motion dead Barbo spoke up to say his firm uses a thousand gallons of gasoline a day - and then asked what was excessive about 10,000 gallons. He was, he said, very disappointed.

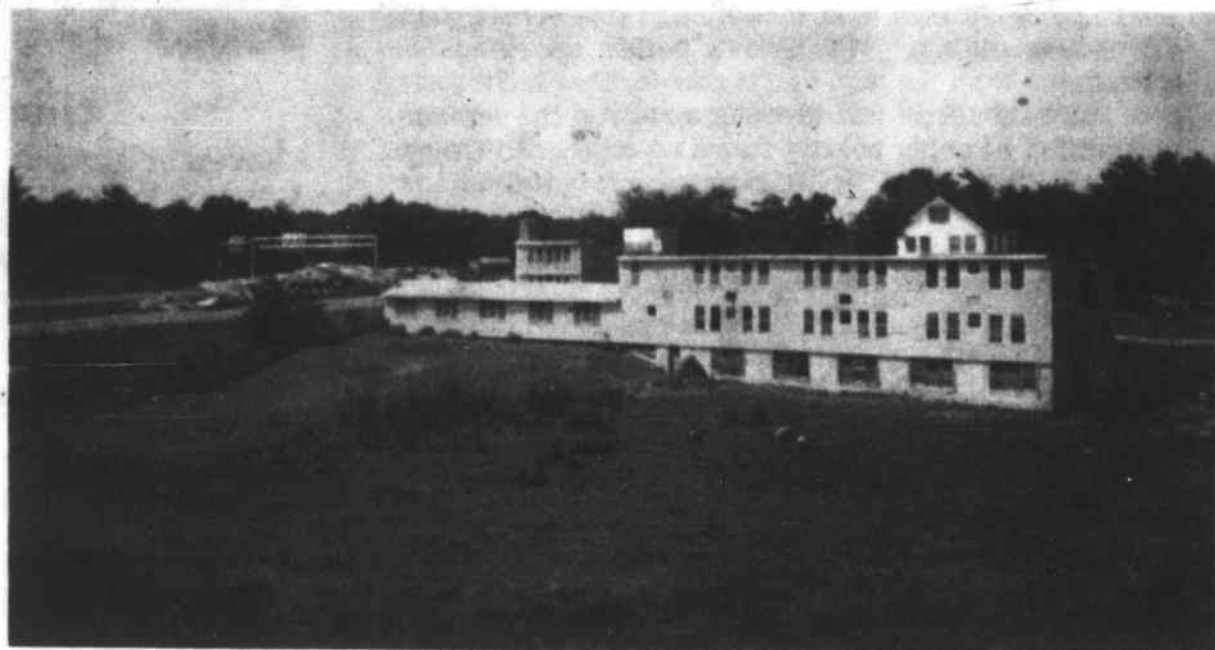

Banda: I share my thoughts with you Mr. Barbo. I would have seconded, but the chairman does not, on this board.

There was an immediate outcry from the three men. Mr. Banda, they said, could second, even if he were the chairman.

Banda then seconded the motion. The vote was two in favor (Mrs. Drew and Banda) and three against. It was then that Banda gave the tongue lashing to the three men on the board.

He was, he said, very disturbed at the action. The difference between the suggestion and the re-

PAGE SIXTEEN

BOB EVANS: Chicken farmer, of Ballardvale Street, has sold the twenty acres of land on which his house stands, for the sum of \$248,500 to L. John Davidson and Associates. It is believed that Mr. Davidson represents a major motel and restaurant firm.

The land sold is at the corner of Ballardvale Street and Route 125 and overlooks Route 93. Mr. Evans has been quoted as saying that he plans to move his home to another parcel of land which he owns on Ballardvale Street. The home is only partly seen in this picture, at right, showing above the hen houses. Interstate 93 is at left.

## Crusaders Try for World Championship Tonight

The Wilmington Crusaders, Drum and Bugle Corps, with the Mayflower Class B Championship safely under their belt, are to try tonight for the World Championship in Class B, Drum & Bugle Corps.

29 Class B Corps, from all over the United States and Canada are competing in the Manning Bowl, in Lynn. The corps report for the contest at 7:30 pm at it will not be over until 2 am.

The Crusaders are in top trim, and have an excellent chance at the championship. The judges are to be from out-of-state, which is an

advantage to the local corps, seemingly, as they have been getting their highest scores from out-of-state judges.

The Crusaders now have the Class B Championship of the Mayflower circuit, in an area that covers from Rhode Island to Maine.

There is a possibility that the 79 youngsters can be tied - two more contests are slated for this season, and if the Dantes of Hyde Park win first place in both contest they will tie the Crusaders.

They cannot do better than to tie the Crusaders. The Dantes have

several times come in at third place this year, while the Crusaders have never been below second place in any contest.

The Crusaders took second place at Randolph, Monday evening, and the Dantes took first. Tuesday at the Deering Field, in Danvers, the Crusaders were first, and the Dantes third.

The Crusaders are the only corps in the Mayflower which has never been below second place this year.

## Lions Club Pre-School Eye Clinic on August 23rd

Joseph App, president of the Wilmington Lions Club, has announced that the club is sponsoring a pre-school registration eye clinic, at the High School on Saturday, August 23, from 9 am to 2:30 pm.

There is to be no charge at all for the eye examination of children who are about to enter school for the first time.

Chairman of the clinic is Richard Howlett. Dr. Gerald Davis with the assistance of other qualified optometrists will conduct the eye examinations of the children.

Good vision for children entering school is important, not only from a standpoint of health, but also from a standpoint of enabling the youngsters to keep up with other children.

Co-operation of all parents will

TOM AND HELEN RETTEU; Of the Wilmington (Delaware) News-Journal, are spending their vacation visiting every newspaper plant in the United States in any town or city named Wilmington. They were in the Town Crier office last week.

be the key to a successful eye clinic, Mr. App has pointed out. The Wilmington Lions Club will

welcome all volunteers to assist them in the many details of the clinic on August 23rd next.

## Gasoline Tanks

The business of refusing a permit for the storage of 10,000 gallons of gasoline, Monday night, by the Board of Selectmen to an incoming business is beyond all understanding. Who knows better the needs of a business than the man who is running that business?

Massachusetts has already acquired the dubious distinction of being hostile to manufacturers through excessive taxation. Is Wilmington now going to add to this hostility, through excessive limitation?

10,000 gallon tanks are, at this time, the most economical way to store gasoline. The Selectmen seek to force Mr Barbo to use a smaller tank, or have none at all.

Forget the fact that Barbo had three million dollars in new taxable property on January one. This was 3% off the average tax bill - a man with a \$500 tax had \$15 of it paid by Barbo. Forget the fact that by next January one the Barbo property will probably be worth \$7,000,000.

But can one forget it? Is the way of the Selectman with incoming business the way to keep taxes down, in Wilmington?

One selectman after the meeting Monday night remarked that the Town has twenty trucks in the Highway Department, plus other vehicles including the Police Cruisers, all getting their gas from a 1650 gallon tank at the Highway Department garage. If Wilmington could get along with a 1650 gallon tank so could Barbo, seemed to be his reasoning.

Last spring, during one of the heavy snow storms that tank ran dry. Snow plows, trucks, police cruisers, all, were buying their gas at the D&D Station in North Wilmington for several days. Ask Donny or Doug.

Instead of denying Barbo a 10,000 gallon tank the Wilmington Selectmen should see that one is installed at the Town Garage. The town is losing money, with a smaller one.

## How To Make Money, Fast

The Limited Dividend Housing Developers, being authorized under House Bill 5581 sounds like a social concept designed to help the poor. How can such housing developers make money if their dividends are limited?

It's so easy its a joke.

Start with \$10,000. Smart money financiers and politicians know where to go, if they want more. All they need is a base figure - so start with \$10,000.

Start a Limited Dividend Housing development, and get contracts to build. Then go to the banks, and you can borrow. You have all that is needed, if properly presented, to borrow \$100,000.

Don't worry about the fact that the law will not allow Eminent Domain, when it comes to getting the land you need. Just offer some hard-pressed land owner more than the land is worth - and he will sell - quickly.

On that land, with the \$110,000 now on hand, construct high rise apartments, or put in trailers, any thing to provide low rental housing. Any time the local authorities try to enforce some silly health or other regulations, just make a lot of noises to the state appeal board. That board will probably be on your side.

## BEDELL BROTHERS INSURANCE AGENCY, INC.

Established 1923

FOR ALL YOUR INSURANCE NEEDS

658-9116

402 Main Street

Wilmington, Mass.

How do you make money?  
Isn't there a limitation of 6% on your \$10,000?  
No. It is on the \$110,000, or whatever your figures show you put into that development. Instead of being only \$600 a year it is \$6600 a year.  
\$6600 income on a \$10,000 investment.  
Pretty good, huh?

## House 5581

Governor Sargent is expected to sign into law next week a legislative bill designed to promote low cost housing in the suburbs of Boston, House Bill 5581. It is aimed, the backers say, at 'snob housing' and at those Boston suburbs where zoning regulations prevent the building of housing for persons of small or moderate means.

That law, it seems to this column, is full of jokers.

Basically it authorizes public, private non-profit and limited dividend housing developers to build any kind of housing in any business, industrial or residential area, in spite of local zoning, and in spite of sub-division, building and health regulations.

All these can be suspended, if they force the developer to spend more money than he considers appropriate.

For example, under this law, if a developer wants to crowd several trailers into a house lot, he can go to the state board of appeals, who can then decide whether or not the local restrictions on trailers should or should not be set aside.

Similarly, if a developer wants to install several hundred trailers in an industrially zoned area, in spite of restrictions which tries to keep residential construction out of industrial areas, the state agency can decide, and tell him to go ahead.

The law doesn't mention trailers. But trailers are low cost housing.

If a developer wants to build apartments, there are no limitations governing maximum height in the law, and local limitations can be set aside. High rise apartments can be constructed, literally, next door to a single family home.

If a town, through its subdivision regulations, requires developers to install sidewalks, or hot top roads, or install adequate drainage in new housing developments, the state could exempt a developer who pleads that such improvements are too expensive for the rents that the project intends to charge.

Rules establishing minimum standards for the design of sewage disposal systems, such as the size of septic tanks, or leaching fields, could be weakened at the option of the state appeals board.

In effect, two kinds of standards would apply, in suburban Boston communities - one for most builders and home owners, and another for the public and private and limited profit agencies who are constructing subsidized housing.

Wilmington's zoning, it can be pointed out, allows two families per acre in most of the town.

Under this law state officials could authorize a developer to erect rental units providing twenty

## Hospital Patients

Elmer Eaton of Ballardvale St. is a patient in the Massachusetts General Hospital, Bullfinch St. He would like to hear from his friends.

E. Hayward Bliss of Glen Road is in the Winchester Hospital as the result of a heart attack. He will probably be confined for 10 days.

## Northeastern VW

## Has Good Sales

Continuing to set new sales records, New England Volkswagen dealers sold more cars during July than in any July in history, Robert S. Clark, general sales manager of Volkswagen Northeastern Distributor, Inc. of Wilmington has reported.

'By retailing 2,554 new Volkswagens last month, our dealers exceeded by five percent the all-time July record they set a year ago' Mr Clark said. 'Their performance is significant because July sales of total automobile industry in New England were considerable down from sale in July 1968.

Sizable sales increases were recorded by the popular Karmann Ghia coupes, Volkswagen buses and Squareback and Fastback models, dealers reported.

**Selectmen's Meeting**

The Board of Selectmen, Monday night, with a full membership present, got around to naming a new member of the Board of Appeals.

Ted Welch of Moore Street, who has rarely attended the meetings of the Board of Appeals as an Associate member, was nominated and elected on motion of James Miceli. Mrs. Drew nominated George Roberties of Woburn Street.

William Caperci of Birchwood Road, who is an engineer for the State Department of Public Works, was elected a new Associate member, on motion of George Boylen.

A fire of a couple of weeks ago, near the Tewksbury line, resulted in a decision by the board to send a bill to the owner of the land, a Mr. Krochmal, because the Selectmen had a report that there was illegal storage of old barrels on the land.

They also had a report from the Board of Health and the Fire Marshall of conditions on the land. The only approach to the property is by Tewksbury.

Mr. Boylen moved that the Selectmen bill the owner for the water used, and the firemen's salaries.

Mr. Banda suggested Civil Action in Court, there had been other incidents he said, but the owner had always got a bulldozer in and hidden the 'evidence'. This time, Banda said, the inspectors got there first.

Civil Action, in court, was voted. A message is to be sent to the Town Counsel.

A discussion was held with four men from Alderwood Estates, resulting in a brief executive session with the four men and the Town Counsel, on the proposals of the Town Counsel, in action against the developer. (This was the same information that the Planning Board had not felt free to give, the week previously, as the Town Counsel was not present).

Mr. Miceli accused the Planning Board of being 'Headline Seekers'. Town Counsel Alan Altman told the meeting that as he saw the bond for Section II there wasn't very much to go on. The alternative, he declared, was a 'remedy against the developer' in court.

Boylen's comment was that he had always felt that the bond was useless. Miceli, in his speech about headlines, declared that the Planning Board should 'do more homework'. It seems, he said, that the Town Manager should 'overlook' all bonds, before they are accepted.

Miceli wanted to pursue 'openly' the proposed course of the Town Counsel but Mrs. Drew and others objected, and Miceli was told of the plans in a whispered conference.

Before the executive session with the four men from Alderwood Estates Mr. Banda declared that the Selectmen were 'going to cover every way' of getting the money for the streets, etc.

Steve Langone appeared before the board wishing to purchase a lot of town owned land on Kelly's Hill, contiguous to his own. He was advised that the town did not own the land. Langone left the meeting, and returned with a note from Attorney Simon Cutter which assured the Selectmen that he, (Cutter) had determined that the town did own the land. An agreement was made with Langone to consider the sale.

Albert F. Silva of Forest Street appeared to purchase a 8800 square foot lot beside his own home. He was somewhat disturbed when he was told that he would have to make the land a part of the lot on which his house stood, and would be unable to develop it as an additional house lot.

The price would be \$1,950, he was told.

Silva declared that an out of town man was building on a lot of land near his home with only 5,000 square feet. This brought a chuckle. The permit, he was told, was given before the new law had been passed on 5,000 foot lots in Wilmington.

Mr. Silva was dubious.

Bernard Wagstaff was given a second class permit, until Dec. 31, to sell used cars on the lot of land across from Gildart's.

He is to build an office and salesroom there, he was told, before he can legally have his li-

cense. Mrs. McKie of the Planning Board, who was in the audience pointed out in the By Laws to one of the selectmen that a Board of Appeals hearing was necessary, but the Selectmen missed the point. They were busy declaring what a nice fellow Mr. Wagstaff is, a point of view which was later seconded by Rep. Fred Cain.

Mr. Cain spoke on Chapter 5581, as it was on Monday in the State House. He was congratulated by the Selectmen on the fact that he had voted against the law.

In a discussion of a lot of land on Park Street, in a residential zone, and owned by Leo Barbo, Mr. Miceli talked at length about 'people being concerned'. The inference was that it was the people of Park Street. They felt, he said, that Mr. Barbo wanted to put through a road.

Mr. Barbo assured Miceli that he had no such plans, and that the lot was being held so that Fire Engines could go in emergencies, and for utilities to get into the Barbo development.

Chairman Banda reminded Mr. Miceli that by law a road could not go through the residentially zoned land, but Miceli paid no attention, and kept after Barbo until he had stated his intentions.

**Planning Board**

The Wilmington Planning Board, Tuesday night, after a long discussion of the facts on the case, refused to sign a plan for land of the Fortunata family, on Church Street. Instead they sent a note to the Town Clerk, advising that lady that she would have to endorse it, as provided for such cases when a Planning Board does not sign.

According to law, either the Planning Board must sign under the 'Approval Not Required' provision or the Town Clerk (rarely) must sign instead, before the plan can be filed at the Registry of Deeds.

The reason for signing was that the land, in a 22,500 square foot zone, had been divided into two parcels, by the Board of Appeals. One parcel had about 13,000 square feet and the other about 16,000.

The notice of the decision from the Board of Appeals had not arrived in the Planning Board office within the stipulated time for that board to contest the decision (21 days) and there was also a good question as to whether or not the Board of Selectmen would support any such contest, but the members, with the exception of Mrs. Madelyn McKie, declared that they would not sign 'because it was not good planning'.

There will still have to be a 'Hatch Act' hearing, because the smaller lot is beside Mill Stream and it is planned to fill along the banks of that stream, or otherwise divert it, the Planning Board understood. They plan to attend that hearing, they decided.

Mrs. McKie, who had just returned from a meeting in Boston of the Kevin White Task Force on Land Uses, was not the chairman for the evening. William Hooper was acting chairman. Mrs. McKie said she wished there was a means of challenging a Board of Appeals decision without having to go to court. She had moved to sign the plan, but it died without a second. Leader of the move not to sign was Mort Grant of Concord Street.

The board did sign a plan for Cornelius Joyce of Glen Road, for the transfer of ownership of the old farmhouse known as The Elms. 34,816 square feet of the farm are to be in the new house lot for the farmhouse.

There was also a long discussion about the Gravel By Law of Wilmington, as the result of a letter from the Town Counsel. The summation was by Danny Gillis, who said 'We have as good a law as any, on gravel removal, - the only trouble is the Selectmen and the Board of Appeals. We put that law through with the aid of Senator Madden in 1955-57, but it is no use if no one will back it up'.

The board is to visit the Jackson Brothers land, along the Shawheen River, on August 25th at 8

several times.

Banda noted that the Selectmen now have the stenographic notes on the session with John Elia, of about a month ago, and that all had a chance to read it. The long awaited decision on the Elia gas station is to be made at the next Selectmen's meeting.

There was conversation with Daniel MacKinnon and Mrs. MacKinnon about taxi licenses. Mrs. MacKinnon wanted to know if the 'Section A' was available (rates). She was told that it was still the old law.

Mr. McNamara of Kenwood Ave. was a speaker, at the end of the meeting. He pointedly said that that the Board of Selectmen is the elective body to which the citizens can turn for relief, and that they appoint many officials, and also appoint an official who appoints many officials.

The point of his remarks, not stated, was that the Town Manager is the individual who appoints the Planning Board.

pm to inspect the land along the river, to inspect it for Conservation (fishing) purposes, in connection with the proposed housing development there.

One and a half hours were spent with Professor Charles Elliot, in a discussion of the 'future highways' plan that he is making, under the provisions of the 701 project. Mr. Elliot should have the plan ready soon for public inspection.

**RICHARD E. DUNN**, of 71 Grove Avenue has been appointed to his third and last term as District Deputy of the Massachusetts Knights of Columbus, by John E. Nugent, State Deputy.

Mr. Dunn is a Past Grand Knight and Present Trustee of the Santa Maria Council 105 of Malden.

In addition to his duties in Wilmington Mr. Dunn will also serve Councils in Stoneham, Nahant, and Middleton during the coming year.

## Open Letter to Teenage Girls

How's your summer been so far? Meet any new kids? Got anything special to do? If you're spending most of your time looking for something to do, we've got the answer for you. Who are we? We're the kids in the Crusaders Drum & Bugle Corps. In case you haven't heard yet, we've already won 5 out of 7 contests, and placed second in the other two. That's a pretty good record, don't you think? We've got about eight more to go, plus three championships to go for.

There is no way to really tell why being in a drum corps is good. It's one of those things you've got to find out for yourself. We can tell you about the great kids you meet from all over. There are loads of pen pals in drum corps. You get cheered by tons of people when you are on the field. Every contest, we look forward to seeing kids we met at the last one. When we are competing on that field, we just want to "Wipe em out" and beat them by the most points we can. Then we talk to them and they are some of the best kids you ever met. After they announce the scores, you know it's hard for a kid to come up and stick out his hand to congratulate you, when you know he's dying inside because you just beat them. You got to respect that. The next contest, you'll try to beat them just as hard, and still be just as good friends.

There's good stuff in your own corps too. You got about 65 or 70 kids, girls and boys, that work together, sweat out the hot days together, travel together, get mad sometimes because the practice is too hard, and then be happy as anything because it is hard. When it's hard to do and practice makes it work, you really feel like you're getting somewhere.

For the first time, we are going to be in the World Open Championships in August, against corps from all over the country. Right now, we're thinking about winning. We need some more girls on flags. More flags really make the corps look good and will give us a higher score against those other corps. The kids on drums and bugles have to practice a long time to compete, but flags is one thing we can give "crash lessons" on.

The only money you'll have to put out is to buy a pair of majorette boots. The corps gives you everything else.

What have you got to lose? Come on down and try it. You just might end up this summer by being a Champion! It's really great! Call 658-4953 or 658-8100 or come to the Town Park on Wednesday nights between 7 and 9.

We want to see you and you and you.....

The Kids in the Crusaders

### KATHLEEN CONWAY GRADUATES

Kathleen H Conway, the daughter of Mr and Mrs Henry F Conway of 139 Burlington Avenue was among the graduates of Lasell Junior College at the annual Commencement Exercises

### Democratic Barbecue

There will be more state office holders in Wilmington on Saturday the 23rd than any time since the last state election campaign.

The occasion is the Annual Chicken Barbecue of the Democratic Town Committee, to be held in the Fred F. Cain, Inc. parking lot, on Main Street at Lowell St.

The barbecue gives officials a chance to get together with the townspeople in an informal atmosphere.

New England delicacies will be served from the barbecue grill from 4 to 8, followed by dancing until 11 PM.

Tickets may be obtained from the program chairmen, Kay Leverone, 658-4145, or Ann Visconti, 658-3991, or any member of the Democratic Town Committee.

### KALENDAR

Use KALENDAR as an aid in scheduling events. Submit items early enough that others will not schedule events for the same time.

Aug. 14: Pre School Registration, High School, 9 to 3:30. M-Z for children not registered previously.

Crusaders participate in World Open Championship, Manning Bowl Lynn.

Minute Men Company meeting 8 pm American Legion Hall. Any one interested may attend.

Aug. 15. CYO Dance, Villanova Hall, 8 to 11 pm.

Aug. 17. Jaycees meet at American Legion Hall, 9 pm.

Aug. 19. Human Rights meeting Mrs. Sherman, No. Reading, will speak on Student program, 8 pm at Methodist Church. Anyone may attend.

Aug. 23. Visual Screening Clinic for children entering school, by Lions Club, at High School, 9 to 2:30 pm.

Democratic Barbeque at Fred Cain's Sales Lot, 4 to 8 pm.

DeMolay Car Wash, Masonic Hall, 9 to 5.

4H Club Fair in Westford. Local clubs entered, 9 am.

Aug. 24. 4H Fair Westford, 1 pm Local clubs entered.

Crusaders & Swordsmen meet at Plaza 11 am to go to Wayland Park

Aug. 29. Coffee Watch, Jaycees, Route 93, 7:30 - 11 pm

Sept. 1. Coffee Watch, Jaycees, 7:30 - 11 pm.

Fish Sunday - Day of Commitment.

Sept. 12. K of C Installation of Officers and Dinner Dance 7:30 pm

Sept. 14. Fish Sunday

Sept. 22. Wilmington Hospital Building Fund Carnival & Fair.

Deadline for items in this column is Tuesdays, at 5 PM. Mail your notices to KALENDAR, 11 Pilling Road, or call 658-3764.

### CAN YOU TOP THIS?

The proceeds to date from the Barn Sale - the Kick-off Project for the new Wilmington Regional Hospital, headed by Mrs. Maurice O'Neil, and her hard working co-workers, has reached the grand total of \$2,907.24

The men's organizations are now planning a Fair, for the benefit of the Hospital, in the last week in September. It will be headed by Ralph Allen of the Rotary Club.

The 'gals' are figuring that if they did over \$2900 in one day, can the men do five times as much in one week.

It will bear watching. It will be the Hard Working 'Gals' versus the Brainy, Brawny Men, in the last week of September.

## House Bill No. 5581

(As passed by the House of Representatives of the Massachusetts Great & General Court)

Chapter 40B of the General Laws is hereby amended by adding the following sections:-

Section 20. The following words, wherever used in this section and in sections twenty-one to twenty-four inclusive, shall, unless a different meaning clearly appears from the context, have the following meanings:-

'Low or moderate income housing'. Any single or multi-unit housing subsidized by the federal or state governments under any program to assist the construction of low or moderate income housing as defined in the applicable federal or state statute, whether built or operated by any public agency or any nonprofit or limited dividend organization.

'Uneconomic'. Any condition brought about by any single factor or combination of factors to the extent that it makes it impossible for a public agency or any nonprofit organization to proceed in building or operating low or moderate income housing without suffering financial loss or for a limited dividend organization to proceed and still realize a reasonable return in building or operating such housing within the limitations set by the subsidizing agency of government on the size or character of the development or on the amount or

nature of the subsidy or on the tenants, rentals and income permissible, and without substantially changing the rent levels and unit sizes proposed by the public, nonprofit or limited dividend corporation.

'Consistent with local needs'. Requirements and regulations shall be consistent with local needs if they are reasonable in view of the regional need for low and moderate income housing considered with the number of low income persons in the town or city affected and the need to protect the health or safety of the occupants of the proposed housing or of the residents of the city or town, to promote better site and building design in relation to the surroundings, or to preserve open spaces, and if they are applied as equally as possible to both subsidized and unsubsidized housing. Requirements or regulations shall be consistent with local needs when imposed by a board of zoning appeals after comprehensive hearing in a city or town where (1) low or moderate income housing exists which is in excess of ten per cent of the housing units reported in the latest decennial census of the city or town or on sites comprising one and one-half per cent or more of the total land area zoned for residential, commercial or industrial use or (2) the application before the board would result in the commencement of construction of such

housing on sites comprising more than three-tenths of one per cent of such land area or ten acres, whichever is larger, in any one calendar year.

'Local Board'. Any town or city board of survey, board of health, board of subdivision control appeals, planning board, building inspector or the officer or board having supervision of the construction of buildings or the power of enforcing municipal buildings laws, or city council or board of selectmen.

'Department'. the department of community affairs.

'Commissioner'. the commissioner of the department of community affairs.

'Committee'. the housing appeals committee of the department of community affairs.

Section 21. Any public agency or limited dividend or non-profit organization proposing to build low or moderate income housing may submit for a public hearing to the board of appeals a single application to build such housing in lieu of separate applications to applicable local boards as defined in section twenty. The board of appeals shall forthwith notify each such local board, as applicable, of the filing of such application by sending a copy thereof to such local boards for their recommendations and shall, within thirty days of the receipt of such application, hold a public hearing on the same. The board of appeals shall request the appearance at said hearing of such representatives of the said local

## Death

LAWRENCE BROOKS  
WAS 18 YEAR RESIDENT

Lawrence P Brooks, husband of Susan J (Wagner) Brooks of 13 Crest Avenue died at the Tewksbury Hospital on August 6th after a long illness.

A native of Boston, he was 85 years old, and had been a Wilmington resident for 18 years.

Beside his wife he is survived by a daughter, Mrs Arthur B. Harper of Derry New Hampshire. He was the father of the late Melvin Brooks, and is also survived by three grandchildren and 7 great grandchildren.

Funeral services were held at the W S Cavanaugh & Son Funeral Home, 374 Main Street on August 9th at 11 am with the Rev. Willis P Miller of the United Methodist

Church officiating. Burial was in the family lot in Wildwood Cemetery.

## Hospital Fund Contributions

The Wilmington Memorial Hospital Building Fund Committee gratefully acknowledges the request of the family of the late Laurence Brooks that contributions be sent in his memory to the Hospital Building Fund.

Friends, relatives, and loved ones honored this week include: Mary Frances Pratt, lovingly remembered on her birthday by Mom, Dad, Sisters and Brothers.

Edward Mahr, Sr., from Mr. and Mrs. Frederick L. Arsenault and family.

Laurence P. Brooks, from Mr. and Mrs. Charles McNis.

Laurence P. Brooks, from Mr. and Mrs. Kenneth Swisher.

Laurence P. Brooks, from Mrs. Elizabeth Thomas.

Laurence P. Brooks, from Mr. and Mrs. Sal Provenzano.

Laurence P. Brooks, from Mr. and Mrs. Eugene Sullivan.

Laurence P. Brooks, from Mr. and Mrs. Alan MacDonald.

Laurence P. Brooks, from Mr. and Mrs. Joseph MacEachern.

Laurence P. Brooks, from Mr. and Mrs. Robert Butters.

Laurence P. Brooks, from Mr. and Mrs. A. M. Woodside.

## WILMINGTON HOSPITAL BUILDING FUND

Memorial Contributions, in lieu of flowers, may be sent to Middlesex Bank, c/o Joseph Maffeo, Wilmington, or the Wilmington Centre Pharmacy c/o Mrs Lillian Woodside, Main Street, Wilmington.

All contributions will be acknowledged.

## Girl Scouts at Summer Camp

Wilmington Girl Scouts are well represented at the Merrimack River Council's day camp at Pomp's Pond, in Andover, this summer. Attending the last session were: Denise Barry, Debra Bent, Susan Bent, Susan Brown, Kathleen Burke, Judith DeMarco, Joanne Maga, Ellen O'Rourke, Nancy Richard, Linda Simmons, Sharon Zimmerman, Michele Bouvier and Maureen O'Donoghue.

The program has featured nature, archery, swimming and all the skills necessary for comfortable out-of-doors living. Craft

projects were many and varied, as parents can testify, having seen the outstanding exhibit at the dining hall last Wednesday. Overnights were popular, even during the rainy period.

Adults from Wilmington who have helped during the six week period as staff members include: Patricia Daw, Evelyn Ellis, Catherine Filipowicz, Jean Foley, Patricia Gilligan, Judith Simmons, Betty Weimer and Shirley Zimmerman. Children of the staff members were cared for at Camp Merrymeeting, making it possible to secure competent leadership.

SUMMER IS FOR SWIMMING: Girl Scouts at Camp Merrymeeting, the Girl Scout Day Camp at Pomp's Pond, in Andover.

In the photo are Lynn Henrich of Andover, and Susan Foley and Moira Donnelly of Wilmington.

## Nosey Nancy

Send your announcements to Nancy, Box 208, Wilmington. I'm on vacation this week, thank you.

## Miceli

## Takes Over Rocco Franchise

Selectman Jim Miceli has taken over the Rocco Franchise, in the Wilmington Football League.

Last years champs, with an 8 and 1 record, the team has 3 league all stars returning this fall, including Jimmy Melzar, Butch McFeeters and offensive Captain Dick Ethier.

Ethier, last year, was the loop's MVP. Operating at quarterback, as he will again be doing this year, he earned his accolades by passing for 56 touchdowns with a 56% completion average, and piling up 2429 yards of total offense, while scoring 42 points himself.

Center Butch McFeeters moves to flanker, this year. Last year he made 37 receptions for 460 yards, and 95 points. He also tied for the league lead in kickoff returns.

Hardrock holdover Billy Eldridge will likely team with 'rookie' Lionel Baldwin at the vital blocking-back slots. Another reputable newcomer, Charlie Cushing, is to get first crack at center to round out the six man offense.

The Jim Miceli Club will have 3 players back from the 1968's stingiest defense, if the 35 points a game allowed in this wide open sport can be termed stingy.

Jim Melzar, with 5 interceptions and a league pacing 39 tackles, captains the defense from his corner-back spot, as well as handling kick returns, and doing this years punting. The other corner is to be manned by Dennis DeMaggio, an off-season acquisition from the Newhouse Builders. Denny had 3 interceptions and 24 tackles last year.

Another Dennis, Dennis Shaughnessy, will be back at the safety spot, with Roy Leroque now at tight safety. Hard nosed Billy Simmons and Bull Begonis figure to be the team's defensive ends, in what looks to be a much improved league.

## Failure To Pay Auto Excise Tax Could Lose Your Registration

Effective July 17, 1969 there will be new procedures used by the Registry of Motor Vehicles for the suspension of Motor Vehicle registrations because of non-payment of Excise taxes.

Upon notice from a Tax Collector that an Excise tax remains unpaid beyond the period allowed by law the Registrar will notify, in writing, the person assessed that the registrations of all vehicles owned by such person will be suspended without further notice unless the Excise tax is paid within 30 days of the date of the notice of suspension. At the time of payment of the delinquent Excise tax the person assessed must obtain a release from the Tax Collector which release must be filed with the Registry of Motor Vehicles together with a \$1.00 filing fee.

If payment is not made within the 30-day period the registrations are automatically suspended and the Registry will notify the Tax Collector to have the registrations and number plates picked up by the Police or Special Constables appointed for this purpose. The registrations and plates will be forwarded to the Registry of Motor Vehicles and suspension will not be revoked or registrations and plates returned until release from Tax Collector is filed with the Registry.

By Louie

If you live in or near a metropolitan area with a large industrial population, chances are you're breathing unclean air.

There are three main types of pollutants: dust, ashes, and other particles; gasoline fumes; and sulphur dioxides.

Air pollution causes health problems and one of the most severe is eye irritation. A recent nationwide survey of U.S. physicians revealed that more than 70 per cent of patients complained of smarting eyes. This was second only to the primary complaint: coughing.

Whether you live near or far from the city, you can take advantage of fine pharmaceutical service such as you will find at Silver Lake Pharmacy, 52 Main Street, Tel. 658-4617. Open 9-10 every day. Candles... Cards... Cosmetics.

HELPFUL HINT: Dental floss is perfect for stringing heavy beads. It will not break, and looks like string used by jewelers.

FROM PAGE TWO

DE MOLAY

or thirty families per acre, a not uncommon ratio in 'high density' apartment housing projects.

It is argued that only one and one half percent of the total area in a community can be used, under this law.

In Wilmington this amounts to approximately 160 acres. If the state were to approve thirty families per acre, this could result in approximately 4500 families, or an additional population of perhaps 18,000 persons. It probably wouldn't happen, but it could.

The law does not measure swamp or wet lands, either - just total areas.

It is an enormous threat, which could result from the enormous discretion granted to a state agency.

The proponents argue that the minimum standards of the Federal Housing Administration, or the Massachusetts Housing Finance Agency would be applied to this type of housing.

Federal regulations can, and are changed, at the will of federal officials.

The Massachusetts Housing Finance Agency does not have any minimum standards.

It apparently reserves the right to judge individually each project it subsidizes. The protection of a non-existent minimum standards is indeed a small protection.

It is not the 'rich' towns with an absolute minimum lot size of one or two acres, such as Dover, Lincoln, Wayland or Groton which will be affected by this law. These communities are too far away from public transportation and industrial employment to warrant low income housing.

Rather it is the Woburns, the Burlingtons, the Sauguses and the Wilmingtons which will attract the attention of the development agencies organized for low and moderate income housing. Ironically, many of the towns which are vulnerable to this bill already have substantial amounts of low and moderate income families.

But these families are not to be the beneficiaries of this law. They will not count, in determining how much housing exempt from local regulations the state authorities can authorize.

So much for your so-called 'snobhousing'!

Then there is the question of taxes.

Public housing is exempt from local taxation. Certain kinds of non-profit and limited-profit housing can also be exempted. Additional legislation broadening or compelling tax exemption for such developments is likely.

The likelihood is that the housing will ignore local design and construction standards made because of local conditions.

Potentially large population influxes would overwhelm already straitened local services, such as schools, and there will be as a result disabling tax burdens, deteriorated public services, depressed values for existing housing, and new subsidized housing constructed in defiance of regulations adopted to insure against residential blight.

Is there a better prescription for new and better slums?

**Bonds Or Bank Books**

It was about eight years ago that the relative value of bank books and/or bonds, as guarantees to the town was first discussed. It was during the fueding of Selectmen Bender and Brooks. Bender thought that the relative value of bonds was nil. Mr Brooks disagreed. The Town Counsel was asked for an opinion, and he said that most of the bonds held by the town were of little value.

The Selectmen then decided that bank books were better, to guarantee performances. But bonds must be accepted, if they are offered, and are bonafide, at least under some circumstances.

Since the Alderwood Estates bond of which there is now some questions, there has been only one bond accepted by the town - and that backed with a bank book for nearly \$100,000.

But the question can be asked - who accepted that Alderwood Estates bond about which questions can be asked?

The then Town Engineer seems to have written a note to the Planning Board, saying that he had the bond. It is possible that the Planning Board never saw it at all, on the strength of that letter.

Of the members of that Planning Board, there are three now in public office - one Planning Board member and two Selectmen.

We at the Wilmington DeMolay would like to thank the people of Wilmington for the great financial support that they gave us by patronizing the Car Wash, both of which have been very successful.

By a token of our appreciation to the townspeople of Wilmington, we washed two of the Police Cruisers. In the future, we hope to perform other services which will help the community.

DeMolay is an organization of young men 14-21 years of age. It is open to any young man who believes in God, is of good moral reputation, and petitions (applies) to an organized DeMolay Chapter. There is no bar as to race, creed or color.

A meeting is held on every Tuesday night at 8:00 pm at the Masonic Hall next to the fire station. Any prospective candidate and/or his parents is always welcome.

If you wish more information, please contact John Friberg at 658-3790 or the advisor, Mr Davidson at 658-8043.

**Register Your  
Handicapped Worker**

The Handicapped Recognition is in search of a handicapped worker and his employer in an eight community area including Wilmington to represent the communities in a state wide contest.

Richard Smith of the State Employment Office in Woburn is the chairman of this committee.

At a meeting held recently, the Committee decided that any handicapped person who either works or lives in the eight community area who would be eligible for the award. The firm must be located in the communities of Reading, Winchester, Stoneham, Woburn, Wilmington, Burlington, Bedford, and North Reading.

A dinner has also been scheduled to honor both the person and the employer, which will be sponsored by the Kiwanis Club of Woburn. Attractive awards will be made to both parties.

Chairman Smith states that it is not the degree of handicap that the Committee is looking for, but rather the manner in which the person has adjusted to their position in the work world. He also stressed that the Committee is not simply looking for an employer who employs the most handicapped persons, but the one who has shown a concerted effort in helping the handicapped become effective in his company.

If you know a person or employer in Wilmington who meets these qualifications:

1. Submit a resume, stating the reasons for nominating a person or employer who resides and works in the eight community area. It need not be long and involved.
2. Nominate a person who has adjusted to, not necessarily overcome, his or her handicap as it applied to their work situation. If an employer, it should be a firm or individual who has displayed a concern in employing and encouraging the handicapped.
3. Include the name, address, and phone number of the nominee and your name and address to Richard Smith, Handicapped Recognition Committee, 25 Montvale Avenue, Woburn, Massachusetts

## House Bill (cont'd)

(Fr. Pg. 6)

boards as are deemed necessary or helpful in making its decision upon such application and shall have the same power to issue permits or approvals as any local board or official who would otherwise act with respect to such application, including but not limited to the power to attach to said permit or approval conditions and requirements with respect to height, site plan, size or shape, or building materials as are consistent with the terms of this section. The board of appeals, in making its decision on the said application, shall take into consideration the recommendations of the local boards and shall have the authority to use the testimony of consultants. The provisions of section seventeen of chapter forty A of the General Laws shall apply to all such hearings. The board of appeals shall render a decision, based upon a majority vote of said board, within forty days after the termination of the public hearing, and, if favorable to the applicant, shall forthwith issue a comprehensive permit or approval. If the said hearing is not convened or a decision is not rendered within the time allowed, unless the time has been extended by mutual agreement between the board and the applicant, the application shall be deemed to have been allowed and the comprehensive permit or approval shall forthwith issue. Any person aggrieved by the action of the board of appeals in granting any comprehensive permit or approval may appeal to the superior court in the manner provided in section twenty-one of chapter forty A.

Section 22. Whenever an application filed under the provisions of section twenty-one is denied, or is granted with such conditions and requirements as to make the building or operation of such housing uneconomic, the applicant shall have the right to appeal to the committee, hereafter established, for a review of the same. Such appeal shall be taken within twenty days after the date of the notice of the decision of the board of appeals by filing with the said committee a statement of the prior proceedings and the reasons upon which the appeal is based. The committee shall forthwith notify the board of appeals of the filing of such petition for review and the latter shall, within ten days of the receipt of such notice, transmit a copy of its decision and the reasons therefor to the committee. Such appeal shall be heard by the committee within twenty days after receipt of the applicant's statement. A stenographic record of the proceedings shall be kept and the committee shall render a written decision, based upon a majority vote, stating its findings of fact, its conclusions and the reasons therefor within thirty days after the termination of the hearing, unless such time shall have been extended by mutual agreement between the committee and the applicant. Such decision may be reviewed in the superior court in accordance with the provisions of chapter thirty A.

Section 23. For the purposes of considering petitions for review under section twenty-two there is hereby established within the department of a housing appeals committee, hereinafter called the committee, consisting of three members, one of whom shall be an officer or employee of the department, appointed by the commissioner for terms of one year each. The commissioner shall designate one of the members to serve as chairman. The members of the committee shall serve without compensation but shall, with the exception of that member appointed from the department, be reimbursed by the commonwealth for all reasonable expenses incurred in the performance of their official duties. The committee shall conduct its procedures in accordance with the rules and regulations established by the commissioner to carry out the provisions of this section. The department shall provide such space and technical assistance as may be required by the committee.

Section 24. The hearing by the committee shall be limited to the issue of whether, in the case of the denial of an application, the decision of the board of appeals was reasonable and consistent with local needs and, in the case of an

approval of an application with conditions and requirements imposed, whether such conditions and requirements make the construction or operation of such housing uneconomic and whether they are consistent with local needs. If the committee finds, in the case of a denial, that the decision of the board of appeals was unreasonable and not consistent with local needs, it shall vacate such decision and shall direct the board to issue a comprehensive permit or approval to the applicant. If the committee finds, in the case of an approval with conditions and requirements imposed, that the decision of the board makes the building or operation of such housing uneconomic and is not consistent with local needs, it shall order such board to modify or remove any such condition or requirement so as to make the proposal no longer uneconomic and to issue any necessary permit or approval; provided, however, that the committee shall not issue any order that would permit the building or operation of such housing in accordance with standards less safe than the applicable building and site plan requirements of the Federal Housing Administration or the Massachusetts Housing Finance Agency, whichever agency is financially assisting such housing. Decisions or conditions and requirements imposed by a board of appeals that are consistent with local needs shall not be vacated, modified or removed by the committee notwithstanding that such decisions or conditions and requirements have the effect of making the applicant's proposal uneconomic.

Section 25. The committee or the petitioner shall have the power to enforce the orders of the committee at law or in equity in the superior court. The board of appeals shall carry out the order of the committee within thirty days of its entry and, upon failure to do so, the order of the committee shall, for all purposes, be deemed to be the action of the said board, unless the petitioner consents to a different decision or order by such board.

Section 26. The provisions of

this act are severable and, if any provision shall be held unconstitutional by any court of competent jurisdiction, the decisions of such court shall not affect or impair any of the remaining decisions.

## Poisons

Lately the Wilmington Police Department has received many calls for antidotes for poisons for children, so please clip the following instructions and keep posted in your medicine closet

- If poison is swallowed:
1. Send for the Doctor
  2. Keep patient warm
  3. No liquids if unconscious
  4. Follow these instructions:

For overdose of camphor, induce vomiting with finger in throat tablespoon of mustard in water or soap and war water or salt and warm water

For insect or rat poisons with arsenic: Mix 2 tablespoons of activated charcoal - 1 tablespoon milk of magnesia and 6 tablespoon tea or induce vomiting as above This also applies to pep medicines

For sleeping medicines or barbiturates: Induce vomiting as above - give 2 tablespoons epsom salt in 2 glasses of water, then give large quantities of hot coffee or strong tea

For tincture of iodine: Give 2 oz thick starch paste. Mix corn starch (or flour) with water. Then give 2 oz salt in quart of warm water. Drink until vomit fluid is clear. Then give glass of milk.

For Insect or Rat Poison with Phosphorus: 4 oz hydrogen peroxide, 1 tablesp. sodium bicarb in quart of warm water. Induce vomit as above. Then give 4 oz mineral oil. Positively do not take vegetable or animal oil.

For Bichloride of Mercury: For each tablet swallowed give white of 2 raw eggs in glass of milk. Give mixture as in #2. 1 oz of epsom salts in a pint of water.

For Iron Compounds: Induce vomiting as above. Give 2 teas-

'The Bank You Know And Can Depend On'

# Operation Head Start 1969

Operation Head Start is almost over for 1969. For a few weeks a couple of dozen children have been at the Woburn Street School five mornings a week, learning of the social graces of life.

They have been well tutored, and well fed, and they have had the benefits of the skills of Reggie Bishop of Marion Street, a finish carpenter, who has volunteered his time to make toys for the children out of packing box cardboard.

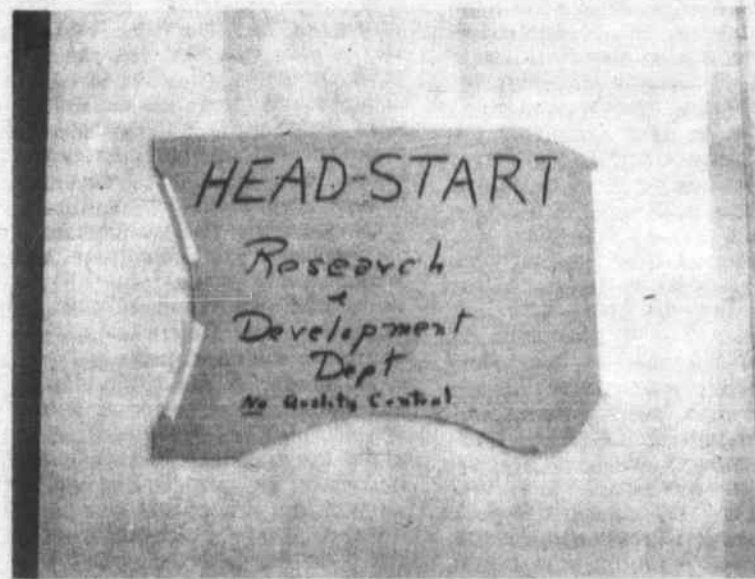

The W T Grant Store at the Plaza and Coombs Furniture Store furnished the cardboard, and among the items furnished by Bishop's skill are the pieces representing the Three Bears and Goldilocks.

The children love it, too.

There have been expeditions to such places as the Animal Farm in New Hampshire, and a lot of other things to keep little hands busy, and little minds in a state of learning. It has been a wonderful summer!

**UNOFFICIAL MASCOT:** An all white cat, which is quite deaf, and which adopted the program for its own. No one seems to know who owns the cat.

**THE SIGN ON BISHOP'S 'OFFICE'.** It was put up as a joke, and everyone enjoys it.

**CHUCKLE IF YOU WILL:** But painting on a cement wall, with brushes and water is a serious business to three and four year olds.

**MUSIC APPRECIATION:** Mr Bishop and his helper may be seen in the background. If the children don't pay attention the music is stopped. It teaches them to keep from being restless.

**GOLDILOCKS AND THE THREE BEARS,** in costumes made by Bishop, and with the assistance of a child's record of the story, complete with musical interpolations.

**THEIR HAPPIEST HOUR:** Just before the bus comes to take the children lunch is served. In the background is Dan Greco, a High School English teacher, who has been invaluable to the program this year. He is talking with Patty Egan, a volunteer assistant who has enjoyed the program almost as much as the children.

## Ken Wilson to Give Five Organ Recitals at Hammond Museum

Ken Wilson of Andover Street, famed organist and musician of station WHDH is to give five organ recitals this fall, on the great organ of the Hammond Castle, in Gloucester.

Mr. Wilson is the resident organist, and during August, on Friday afternoons, has been giving pop concerts on the great 14,000 pipe organ, located in the Great Hall.

His program this fall starts on

October 24th at 8:30 pm when he will have a concert entitled 'A Salute to Autumn' Like the succeeding programs, it is on a Friday

Patriotic Pops is the title of the concert to be given on November 14th., and on December 12th he will have a program entitled 'Christmas at the Castle'.

The same title is listed for the following week, and on the 21st of December, a Sunday, the organist will be Mrs Karl Witham, and

the program is to be a Christmas Carol Sing.

The Hammond Museum is surrounded by tall pine trees, and stands above the rocky shore near Gloucester. It captures the spirit of medieval times in Europe, serving as a setting for the objects of art displayed, most of which are from the Middle Ages. The works include examples of sculpture, painting and the minor arts as well as architectural portions taken from dwellings and churches abroad.

The Great Hall of the castle is proportioned like a transept of a church. The scale, the architectural detail and the brilliance of stained glass gives it the beauty of a Gothic interior. The objects are examples of sculpture and furniture, carved to give a rich variety of light and shadow. It is in the Great Hall that the 14,000 pipe organ is located.

The Hammond Castle comprises the collection of John Hays Hammond, Junior. An inventor by profession, he has been keenly interested in the arts since early childhood, when the taste was developed by travel abroad. His father, John Hays Hammond Senior, was a partner of Cecil Rhodes, famous mining engineer.

On Hammond Junior's death, February 12, 1965, the castle was bequeathed to the Roman Catholic Archdiocese of Boston, with Richard, Cardinal Cushing as Trustee.

The castle conducts guided tours during the summer, to Sept. 15th, on Sundays and holiday afternoons, from 2 to 4 pm with adult admission \$1.25 and children under 12 75¢. Special group reservations may be made by writing the Museum, at Hesperus Avenue in Gloucester.

All of the Wilson concerts start at 8:30 pm. Recordings of the great organ, made at the Hammond Castle, are for sale in the gift shop.

RAYMOND J MERCURI  
NOW A C.P.A.

Raymond J Mercuri, 13 Kenwood Avenue, became a Certified Public Accountant, last Saturday, after having passed the state examination.

Mr Mercuri is an employee of the J K Lasser Co., income tax consultants, of Boston.

# Letter

Dear Sir:

Recent developments concerning the completion of Section II of Alderwood Estates have resulted in the following facts:

1. In November of 1968, a contingent of property owners attended a meeting of the Planning Board to discuss the completion of streets, curbing, sidewalks, and tree plantings in that area. At that time we were given oral assurances that immediate action would be taken by the Planning Board to assure us that, by the summer of 1969, we would see physical evidence that our requests had been acted upon.

Unfortunately, we were inexperienced and naive enough to accept the Planning Board's statements at face value.

2. Waiting patiently through what now must be considered the normal gestation period for Planning Board action, we again approached the Planning Board in July of 1969, (nine months later) only to find that other than two written notifications to Town Counsel which asked him to pursue a remedy to the situation under section 81U, chapter 41, of the General Laws, no other positive action had been taken.

(It should be pointed out at this time that the Town Counsel was not provided with sufficient information upon which he could take any action).

The closing remarks of the July 22nd meeting referred us to the Board of Selectmen. After recovering from the initial shock and disillusionment growing from the obvious inactivity on the part of the Planning Board, we proceeded to hold a mass meeting of all residents of the area, which resulted in the election of four men who would be spokesmen for the neighborhood's interests.

3. On July 28, 1969, these spokesmen formally introduced themselves before the Board of Selectmen to appraise the Board of the present situation. Much discussion ensued. The net result was that the chairman of the Board of Selectmen gave a detailed explanation of the responsibilities of the Planning Board in respect to the handling of sub-divisions. Mr. Banda was very polite, but stressed the point that since the 'streets' are considered private property, our only recourse was to return to the Planning Board, who had legal jurisdiction, and pursue the situation further with them.

4. On August 5, 1969, the elected spokesmen presented themselves to the Planning Board. There, after a lengthy and fruitless discussion, it was determined that the bond (?) had not been made available to the Town Counsel as yet. It was an extremely frustrating session, in that a list of twelve, typed, specific questions were supplied to each member of the Planning Board, but were met with the response 'we have answered these before'. (In our opinion we have never received complete, factual answers to these questions, to date).

In summary, we were advised by the Planning Board, that all available documents would be turned over to the Town Counsel as soon as they could be located in the Town's files, copies made, and forwarded. The four men, then, offered to make their own time available to the Planning Board to assist in locating and duplicating the appropriate records.

5. On August 11, 1969, last Monday, the spokesmen for this group again presented themselves to the complete Board of Selectmen, Town Counsel and Town Manager. We were told, by Town Counsel, that a package of data was supplied to him by the Plan-

ning Board. And, that he is reviewing this, and any other pertinent information that may become available, before he offers any advice to the Board of Selectmen. (It should be noted that it is obvious that the Town Counsel's responsibilities are to the Board of Selectmen and the town which he represents). Also, we would like to state that after all of our efforts we feel extremely frustrated that this situation has developed from what should have been an obviously avoidable incident into one from which a satisfactory solution might well be unattainable.

Yours truly,  
Sanford N. Bearse  
Gordon T. Francis  
Bruce A. Peters  
Richard L. Smith, Sr.  
Spokesmen for the residents of

Alderwood Estates, Section II

## POISONS (Fr. Pg. 11)

poons of sodium bicarb in a glass of warm water.

For Chlorine Bleach or Disinfectant with Chlorine Bleach: Give 1 tsp of aromatic spirit of ammonia in glass of water. Hot coffee or strong tea plus white of raw egg.

For Oil of Wintergreen, rubbing alcohol, alcohol, or headache & cold compounds and aspirin: Give mixture of 2 tblsp of activated charcoal-1 tblsp milk of magnesia and 6 tblsp tea. Induce vomiting and give a tblsp sodium bicarb in quart of warm water. Give strong tea or coffee.

For Household Ammonia or

Washing Soda or Lye: Give 2 tblsp vinegar in 2 glasses of water. Give white of 2 raw eggs or 2 oz of olive oil. Do NOT induce vomiting.

For food poisoning, DDT, and Mushrooms: Induce vomiting as in one and give 2 tblsp epsom salts in 2 glasses of water. Then give large quantities of hot coffee or strong tea.

For disinfectant with Carbolic Acid: Induce vomiting as in one. Give 2 oz castor oil. Then give glass of milk or whites of 2 raw eggs.

For Codein, Morphine, Opium, or Paregoric: Give Mixture as in second item and 2 tblsp epsom salt in 2 glasses of water. Keep patient awake.

For insect or rat poison with sodium flouride: Give 2 tblsp of

milk of magnesia. Give glass of milk. Induce vomiting as in first item.

For Rat or insect poison with strychnine, belladonna, bromides: Give mixture as in second item. Give artificial respiration. Keep patient quiet.

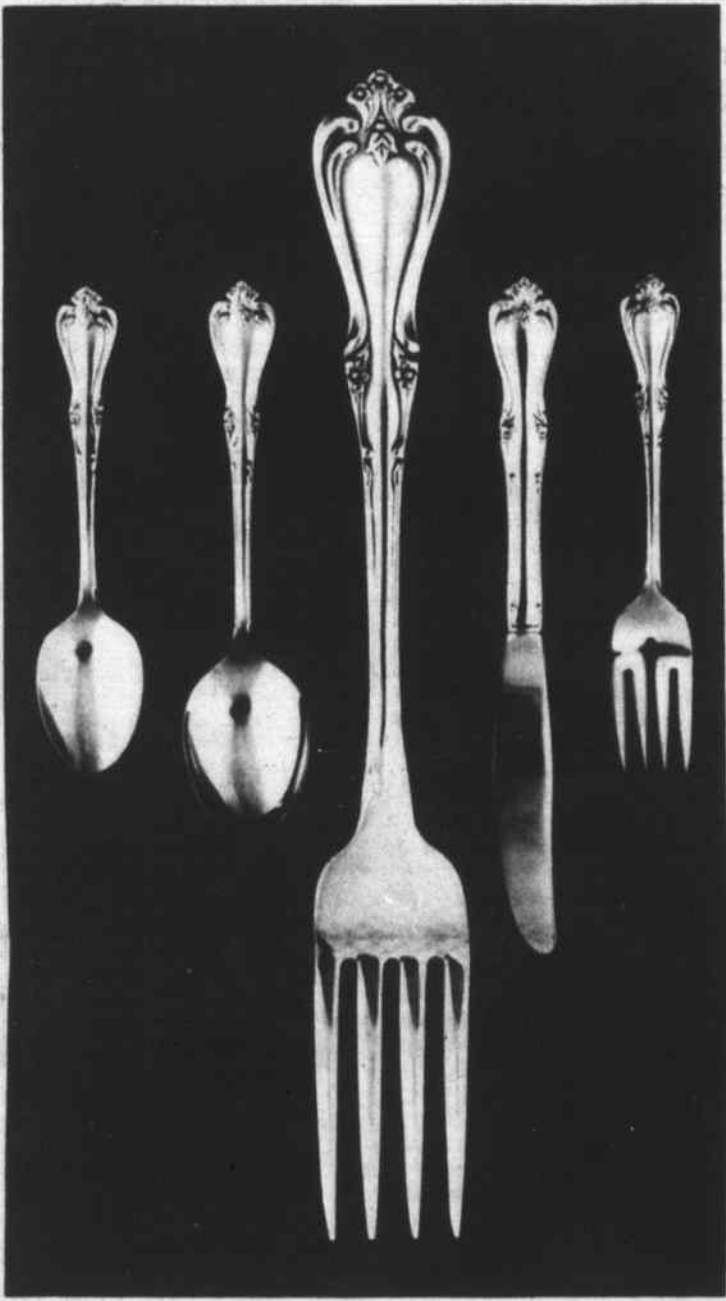

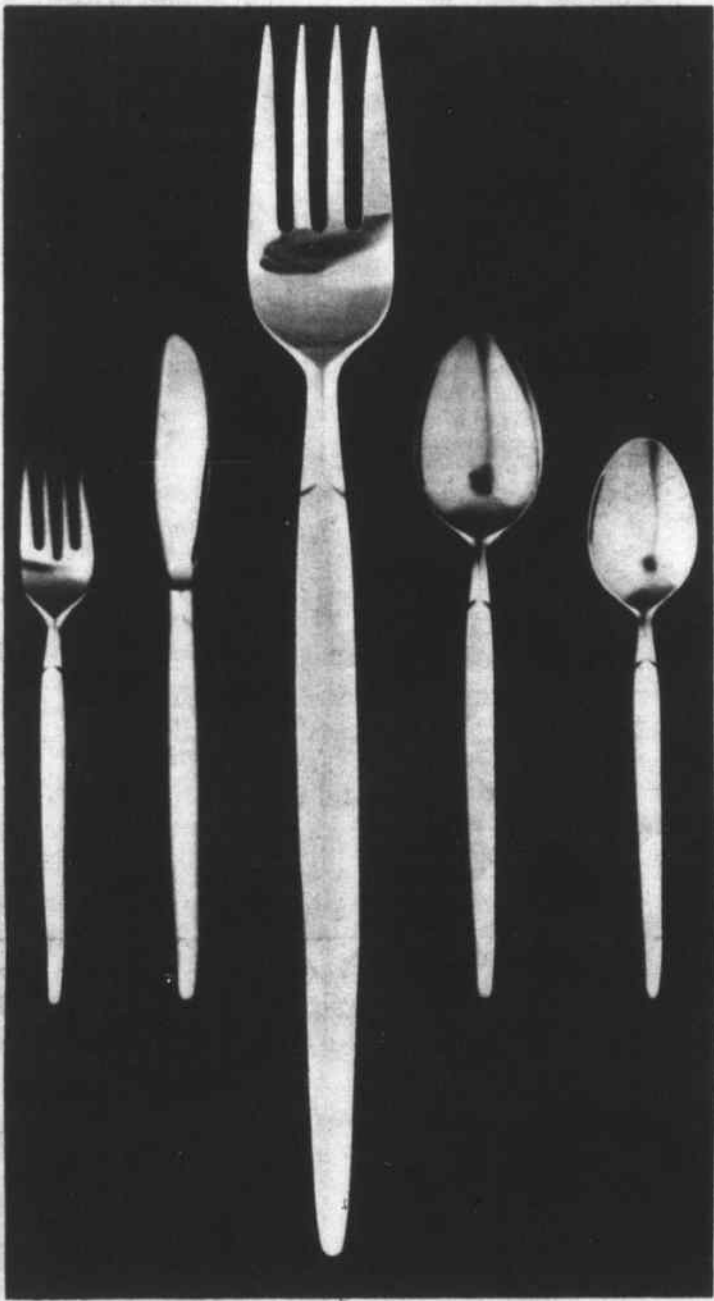

For Carbon Monoxide: Carry victim into fresh air. Make patient lie down. Hot coffee or str. tea.

For furniture polish, gasoline, kerosene, pine oil, turpentine: Give 4 oz mineral oil. Then give hot coffee or strong tea.

For acids: Give 1 oz milk of magnesia in large quantity of water. Do NOT induce vomiting.

250 REDUCED FARE MBTA TICKETS: Were issued in Wilmington, Tuesday, at the Old Age Housing on Deming Way, to Senior Citizens of Wilmington.

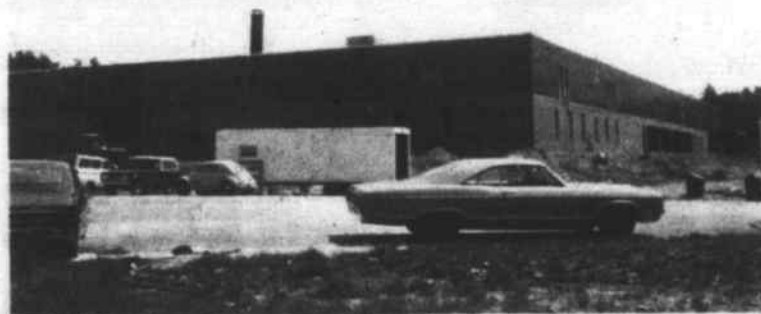

Wilfred Lemos, 72, of 8 Parker Street is shown posing for his photograph, which goes on the ticket. The MBTA photographer is Ricky Pitcher, and with him is Bob Rogers, also of the MBTA

## ZING BARBO

(Fr. Fr. Page)

quest was 4000 gallons. 'If he is going to take it (gasoline) it might as well be 10,000 gallons' 'In fairness to the man, the Selectmen should grant this. It means a savings to him - delivery costs will be much less - I know - I found out when I put in a larger

tank at my house, for fuel oil. With a 10,000 gallon tank a truck would only have to make one trip, instead of several. I don't think that 10,000 gallons is excessive!' Again the three male members sat silent. Barbo walked out of the room.

THE BARBO WAREHOUSE: At the end of Fordham Road, it is nearly complete and ready for occupancy.

CHARLES RIDLEY TO BE AIR POLICEMAN
